Papers Found in Jap Headquarters Give Particulars of the Uprising of the Striking Plantation Hands.

(Associated Press.)
HONOLULU, June 12.—Seventeen Japanese leaders of the striking plantation workers, of whom about 8000 are out, were indicted by the grand jury late this afternoon on charges of having conspired to incite disorders in the Hawaiian islands. This action promptly followed the somewhat sensational disclosures made yesterday afternoon when the offices of the Japanese Higher Wage association and the Japanese newspaper "Jiji" were searched and incendiary documents were revealed tending to show that a conspiracy was in prospective formation among certain Japanese to wrest the control of the islands from the whites. So important was the disclosures that the grand jury was hastily summoned today and the documentary evidence seized in the raid was laid before the body. The deliberations were followed by true bills against the seventeen strike leaders. The jury will convene again tomorrow as a result of the inquiries. Among the translations was the following letter: "The Japanese strikers are facing the planters with enough powder, lead and food to make victory a sure end. Now is the time to exalt your nation and tint with blood the flag of the rising sun. Against those who oppose our action we must be ready with the hammer of iron and a rain of blood to make the obstinate and blind planters reflect and to exterminate Sometaro Sheba, the traitor editor of 'Shin Po' and his followers. We must prepare and if higher wages are not obtainable the sword must visit Sheba at any time and he should provide a livelihood for the family which will be left."
"Nippu," the strikers' organ, denounces the arrest of the leaders and declares that if anything happens it will be the fault of the capitalists and authorities who have resorted to tyrannical oppression. The authorities declare that the disclosures and arrests made today have cleared the situation and has given them entire control of the situation.
ANN ARBOR (Mich.), June 12.—Japanese Ambassador Takahira tonight declared that he knew nothing of the reported conspiracy among the Japanese of Hawaii to wrest control of the islands from the whites. He declared that there is no Japanese army in Hawaii because they do not have the right to vote.

ARE SACKING RICH FLOAT AT ELLENDALE

Owners of the Big Strike Place Men at Work Yesterday---Camp Visited by Many Tonopah and Goldfield People

The rush to Ellendale was unabated yesterday and the different auto companies of this city transacted a rushing business, sending out car after car filled with passengers. The townspeople company also engaged in a good business and a number of lots were disposed of. The road between this city and the new camp is lined with loaded teams conveying new establishments to what will prove to be the queen city of the desert. Among the visitors yesterday were General Manager J. H. McKenzie, who was accompanied by Tom D. Murphy, Webb Partinson, and Postmaster Collins, all of Goldfield. They were loud in the praises of the district and from a brief inspection of the wonderful ledge, stated that the camp should prove the biggest and best in Nevada.
Charles S. Sprague, of the Goldfield News, and William Erb, also of the southern camp, were visitors and were shown the sights. Zeb Kendall made a flying trip to the new strike and on his return stated that men had already been placed at work sacking the rich float.

RAILROAD PROJECT FOR EXTENDING LINES SOUTH

(By Associated Press.)
WASHINGTON, June 12.—Several railway magnates have been approached lately by officials of the Bureau of American Republics with a view of interesting them in the construction of a pan-American railroad through southern Mexico, Central America and far into South America. Director Barrett of the bureau says that by the time the third Pan-American conference meets at Buenos Ayres next year a definite proposition will be ready for submission by the American nations. It is recognized that governmental aid must be given in this project, just as the United States assisted in the construction of the great continental lines connecting the Atlantic and Pacific.
